***Examiner's Amendment/Examiner's Comments/Reasons for Allowance***

**Examiner's Amendment**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel S. Glueck on December 15, 2004.

The application has been amended as follows:

1. Cancel non-elected claims 5-50 and 52-58.

**Examiner's Comments**

For applicant's information, newly presented claims 59-60 have been grouped together with the elected existing claims 1-3 and 51 since they are directed to the same species as these elected claims and therefore claims 59-60 have been examined and considered herein.

**Reasons for Allowance**

The following is an examiner's statement of reasons for allowance: none of the prior art either alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103. Specifically, with respect to independent claim 1, none of the prior art either alone or in combination disclose or teach of the claimed imaging lens system specifically including, as the distinguishing feature in combination with the other

limitations, the imaging lens system further satisfying the condition  $|\Delta S/f| > 1.0$ . Specifically, with respect to independent claim 59, none of the prior art either alone or in combination disclose or teach of the claimed imaging lens system specifically including, as the distinguishing feature in combination with the other limitations, the imaging lens system having the specific structure from an object to an image side as claimed with an optical surface of one of the claimed six optical elements as a diffractive surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
